Admission Policy and Application

Avalos P-TECH Admission Policy and Application

Admission is open to all 8th grade students. Avalos P-TECH uses a performance blind, open-access lottery system that encourages and considers applications from all students (all students have an equal opportunity for acceptance, regardless of background or academic performance).

An 8th grade student interested in focusing on college and career while in high school should complete the application found at <https://apply.aldineisd.org/login>

Once a completed application is submitted, the student will enter the lottery drawing.

Please enter contact information that is valid and check your email frequently for updates and information about lottery results.
